12. Validation Plan

- (high) What is the total project budget and funding source? — project=E0116
- (high) What is the expected timeline for the RFQ/RFP release? — project=E0116
- (high) Are there any specific locations or scale details for the residential developments? — project=E0116
- (high) Are there any pending regulatory approvals or constraints? — project=E0116
- (high) What is the current status of the project beyond 'Proposed'? — project=E0116
- (high) What is the expected timeline for releasing the RFQ/RFP? — project=LOOP70
- (high) What is the total project budget and funding breakdown? — project=LOOP70
- (high) Are there any specific qualifications or experience requirements for consultants? — project=LOOP70
- (high) Who are the key decision-makers for this project? — project=LOOP70
- (high) When is the expected release date for the RFQ/RFP? — project=BD214
- (high) What is the total project budget? — project=BD214
- (high) Are there any specific technical requirements or constraints for this project? — project=BD214
- (high) When is the expected RFQ/RFP release date? — project=SS152
- (high) Is funding fully secured for this project? — project=SS152
- (high) What is the procurement method expected to be? — project=SS152
- (high) Are there any known constraints or special requirements for bidders? — project=SS152
- (high) What is the exact procurement timeline for this project? — project=SS160
- (high) What is the total project budget? — project=SS160
- (high) What specific alternatives are being explored for the culvert replacement? — project=SS160
- (high) Why is the 'Final Design' phase marked as inferred=False? — project=SS160
- (medium) When is the expected release date for the RFQ/RFP? — project=PC233

- (medium) What is the total project budget? — project=PC233
- (medium) Are there any specific technical requirements or constraints for this project? — project=PC233
- (high) What is the expected timeline for the reevaluation of project timing and design? — project=W0200
- (high) Are there any known budget constraints that might affect the procurement process? — project=W0200
- (high) Has the project been approved for funding and is it ready to proceed to procurement? — project=W0200
